CONTENTS

Volume 4, Issue Nos. 1–4

SOFTWARE—PRACTICE & EXPERIENCE

Issue No. 1, JANUARY–MARCH

Editorial 3

S. S. Coleman, P. C. Poole and W. M. Waite: The Mobile Programming System, Janus 5

L. E. Nolan and J. C. Strauss: Workload Characterization for Timesharing System Selection 25

R. G. Hamlet: User-Like Executives 41

M. V. Zelkowitz and W. G. Bail: Optimization of Structured Programs . . 51

P. B. Schneck: The Myth of Multiprogramming 59

T. Lang and D. A. Fox: A General Purpose Task Queueing Mechanism for Small Machines 63

W. J. Milne: A Simple Interactive Graphics Facility 71

M. Marcotty and H. Schutz: The Systems Programming Language, Malus . . 79

D. G. Bate: Design and Implementation of an Interactive Test Bed . . . 91

Short Communications 111

Issue No. 2, APRIL–JUNE

Editorial 115

J. L. Elshoff, R. Beckermeyer, J. Dill, M. Marcotty and J. Murray: Handling Asynchronous Interrupts in a PL/1-like Language 117

G. L. Farr: Virtual Storage on ICL 1900's 125

A. M. Bauer and H. J. Saal: Does APL Really Need Run-time Checking? . . 129

P. J. Brown: Writing Software in ALGOL 139

K. J. MacCallum and L. T. Shafe: A Mixed Language System POP-2 and FORTRAN 145

P. Desjardins: Dynamic Data Structure Mapping 155

D. A. Jones and N. J. Partington: A Software Teletype Exchange . . . 163

R. E. Thomas and D. C. Toll: Implementation of a Management Game . . 171

R. S. Scowen and B. A. Wichmann: The Definition of Comments in Programming Languages 181

Short Communications 189

Issue No. 3, JULY–SEPTEMBER

Editorial 195

H. Gomaa: An Exercise in Resource Allocation 199

M. J. Spier, T. N. Hastings and D. N. Cutler: A Storage Mapping Technique for the Implementation of Protective Domains 215

W. R. Franta and P. A. Houle: On a Loose Communication Between Dissimilar CDC6000 Operating Systems 231

M. R. Williams: Heuristic Procedures (If They Work—Leave Them Alone) . 237

H. E. Kulsrud: Some Statistics on the Reasons for Compiler Use 241

T. W.-S. Plum: Random Search on the 8-Queens Problem 251

K. Wong and J. C. Strauss: Use of a Software Monitor in the Validation of an Analytic Computer System Model 255

P. G. Barker: POP-2 Performance on a Small 1900 Machine 265

J. R. Bell: Rapid Calculations of Subscripted Array Addresses 275

P. M. Girard, I. H. Rose and D. B. Scott: Implementation of a Graphics and Text Output Retrieval System 279

C. Wrandle Barth: Notes on the **case** Statement 289

Short Communications 299

Issue No. 4, OCTOBER–DECEMBER

Editorial 307

R. M. Footit and C. Whitby-Strevens: The University of Warwick Modular One Operating System 309

N. Chapin: New Format for Flowcharts 341

B. G. Ryder: The PFORT Verifier 359

J. Palme: List Structures in SIMULA and PL/1—a Comparison 379

P. Hazel: A General-Purpose Text Editor for OS/360 389

Short Communications 401
